### FROM CAIRO AND BELOW.

**The Murder of Col. Osband—Confirmation of the Report—Trial of Guerillas at Freedman's Bureau—Arrest of Important Order—A Cotton Thief—Horrible Murder—Etc.**

[Special Despatch to the Chicago Tribune.]

CAIRO, Feb. 4.

The Fort Gibson *Standard*, of the 30th ult., says it is reported that Col. Osband, who was commanded in the last issue of that paper to leave the post or be arrested, was murdered after he left Fort Gibson.

Four citizens were carried off and imprisoned, was found on the road, and his pantaloons in Benton county, his throat having been cut. No money has been discovered to be the perpetrator of the deed.

Despatches from Memphis announce the arrival by the General commanding at Mobile for the trial of guerillas captured on the Tombigbee River a few days since. The Commissioners arrived on the 29th.

After a session of two months the Circuit Court of Shelby county, Tenn., has adjourned. Over fifty indictments, all freedmen, were entered in the proceedings, principally for larceny, and a few for arson. In all these cases, Mr. Grant, who has the docket before him, is thoroughly conversant with the facts, and can determine the action that is here, which he does not assume the action that is here, which he does not assume.

A horrible murder was recently committed at Hamburg, Ark., on the person of Mr. Wilson, clerk in the store of James M. Priest, grocers and clerks. Mr. Wilson was found dead in the store, with his throat cut from ear to ear, and his head almost severed from his body. The murderer was found in the store, and

## THE PEACE DEBATE.

Secretary McClellan's report was read and the debate resumed.

Mr. Douglas addressed the Senate in favor of the bill. He contended that the Senate had the power to admit Kansas under the Lecompton Constitution, and that the bill was constitutional. He argued that the Senate was bound to admit Kansas under the Lecompton Constitution, because the people had ratified it at the election held on the 21st December. He argued that the election held on the 4th January was illegal, because the people had not been allowed to vote for or against the Constitution, but only for or against the slavery clause. He argued that the Constitution was the act of the people, and that the people had the right to change their Constitution at any time they pleased. He argued that the Constitution was the act of the people, and that the people had the right to change their Constitution at any time they pleased. He argued that the Constitution was the act of the people, and that the people had the right to change their Constitution at any time they pleased.

## THE PEACE EMIGRATION.

There is a movement under foot to induce a large emigration of peaceable persons to Kansas. We doubt not that will soon be the case. We trust that the Legislature will not be induced to adopt any measure which will tend to drive away the peaceable people who are now settling in Kansas. We trust that the Legislature will not be induced to adopt any measure which will tend to drive away the peaceable people who are now settling in Kansas.

## THE KANSAS WAR.

There is a movement under foot to induce a large emigration of peaceable persons to Kansas. We doubt not that will soon be the case. We trust that the Legislature will not be induced to adopt any measure which will tend to drive away the peaceable people who are now settling in Kansas.

## THE TRUE COURSE.

By the papers already laid before the people of Illinois, it will be seen that the Lecompton Constitution was submitted to the people for their ratification or rejection, on the 21st December, 1857. The people voted for the Constitution with slavery, and against the Constitution without slavery. The Constitution was then submitted to the people for their ratification or rejection, on the 4th January, 1858. The people voted for the Constitution with slavery, and against the Constitution without slavery. The Constitution was then submitted to the people for their ratification or rejection, on the 4th January, 1858. The people voted for the Constitution with slavery, and against the Constitution without slavery.

## THE PENDING WAR.

There is a movement under foot to induce a large emigration of peaceable persons to Kansas. We doubt not that will soon be the case. We trust that the Legislature will not be induced to adopt any measure which will tend to drive away the peaceable people who are now settling in Kansas. We trust that the Legislature will not be induced to adopt any measure which will tend to drive away the peaceable people who are now settling in Kansas.

## ANOTHER STEAMBOAT DISASTER.

Explosion of the Steamer Lady Franklin—Loss of Life.

Special Dispatch to the Chicago Tribune.

CAIRO, Feb. 8.

The Steamer Lady Franklin, from St. Louis for New Orleans, with a cargo of merchandise, and a number of passengers, was destroyed by fire on the night of the 7th inst. The fire broke out in the engine room, and the boat was soon in flames. The passengers and crew were all saved, but the boat and cargo were a total loss. The boat was insured for $100,000, and the cargo for $200,000. The boat was built in 1850, and was 300 tons burden. She was commanded by Capt. John Smith, and had a crew of 30 men. The passengers were all saved, but the boat and cargo were a total loss. The boat was insured for $100,000, and the cargo for $200,000. The boat was built in 1850, and was 300 tons burden. ## Special Notices.

**Dr. Mackey**

Is the most successful physician in the city for all private diseases of a delicate nature. Secret diseases, the result of indiscretion, destroy the happiness of thousands who are unconscious of the cause. Many young men are troubled with nocturnal emissions, and frequently do not know from what cause it arises. Many middle-aged men are troubled frequently with a too frequent discharge of the urine, which they often attribute to other causes. No one ever heard of a patient of his put under the influence of mercury. The venereal disease is entirely eradicated from the system by his new and improved method of treatment. Persons who have committed an indiscretion, or have become the victims of bad habits, which have destroyed the nervous system, rendering them unfit for business or society, should consult him immediately. Persons who have injured themselves by the use of quacks, and have become disgusted with them, should not despair, but call on Dr. Mackey, and be restored to perfect health. Persons who have been salivated by mercury, or have taken large doses of Iodide of Potash, and have suffered with rheumatic pains, nodes on the bones, ulcers on various parts of the body, sore throat, mucous patches in the mouth, falling of the hair, pimples on the face, and who have become reduced in flesh, weak, nervous, and debilitated, should call on him immediately. Persons who have been unfortunate in contracting the above diseases, and have been unsuccessfully treated by others, should not fail to call on him, as he has had many years' experience in the treatment of these diseases, and has never failed in a single case. Persons who have been under the treatment of others, and have been pronounced incurable, should not despair, but call on him, as he has had many cases of this kind, and has never failed in a single case. Persons who have been under the treatment of others, and have been pronounced incurable, should not despair, but call on him, as he has had many cases of this kind, and has never failed in a single case. Persons who have been under the treatment of others, and have been pronounced incurable, should not despair, but call on him, as he has had many cases of this kind, and has never failed in a single case.

Dr. Mackey has been a resident of this city for the last twenty years, and is well known to many of the citizens whom he has cured. No one ever heard of a patient of his put under the influence of mercury. The venereal disease is entirely eradicated from the system by his new and improved method of treatment. Persons who have committed an indiscretion, or have become the victims of bad habits, which have destroyed the nervous system, rendering them unfit for business or society, should consult him immediately. Persons who have been salivated by mercury, or have taken large doses of Iodide of Potash, and have suffered with rheumatic pains, nodes on the bones, ulcers on various parts of the body, sore throat, mucous patches in the mouth, falling of the hair, pimples on the face, and who have become reduced in flesh, weak, nervous, and debilitated, should call on him immediately. Persons who have been unfortunate in contracting the above diseases, and have been unsuccessfully treated by others, should not fail to call on him, as he has had many years' experience in the treatment of these diseases, and has never failed in a single case. Persons who have been under the treatment of others, and have been pronounced incurable, should not despair, but call on him, as he has had many cases of this kind, and has never failed in a single case.

Send for his "Guide to Health," published monthly, free of charge.

TO THE MEN, YOUR PARTICULAR NOTICE.—Doctor Bigelow devotes much of his time to the treatment of those cases caused by a secret habit which ruins both body and mind, unfitting the sufferer for either business or society. The sad effect of these early habits, or the excess of riper years, is to weaken and destroy the manhood, destroy the physical and mental powers, diminish and enfeeble the natural feelings, and exhaust the vital energies or manhood the glances of the sufferer, the object of marriage frustrated, and existence itself rendered a curse to himself, and to those around him. Such persons, especially those contemplating marriage, should lose no time in seeking immediate assistance, as Dr. B., by his new treatment is enabled to ensure a speedy and permanent cure.

And Future Prospects in Life clearly revealed by Dr. Leonard. He tells you what business you are best adapted to follow to wealth, health and happiness. Call at Drug Store 221 East Baltimore, between Wells and Frederick streets.

**Public Health. The Press.**

Advertising has been pronounced "declamation" by medical men. Nevertheless, the public press is the most valuable remedy to any profession. Its private practice should be made known to the people. Every physician, should be made known to the people. Every physician, should let make his merits known to the people. This may be "declamation," but it is beneficial. Physicians who do not advertise are generally unknown. Those who do advertise are generally known. Dr. Jones, of 86 Randolph street, Chicago, Ill., has been a physician in the world, and has been a physician in the world, and has been a physician in the world, and

Chicago Tribune.

MONDAY, FEBRUARY 4, 1856.

## THE CITY.

Fire.—The alarm at 4 o'clock on Saturday afternoon was occasioned by the firing of a mattress in the house No. 100 Herman street. The fire was put out before the engines arrived.

Distinguished Arrivals.—The following distinguished gentlemen arrived at the Tremont House last evening: Hon. C. G. Dana, President of the P. F. W. & C. R. R.; Judge W. B. Snyder, Milwaukee; and O. Lee, Esq., President of the Western Union R. R. Co., of Wisconsin.

An Exchange Bank in Paxa.—Mr. J. C. Hedrick, of Ohio, has just opened a banking house in Peru, this State, a mark of progress in that thriving town, and a matter of great convenience to our merchants and business transacting business and residents in that part of the country. Mr. Hedrick is a gentleman of high character, and to the credit of a town of only eighteen months' growth, be it said, a highly successful career in banking and trading, he has the himself a most enviable character for integrity.

Elevated Accident.—The freight train coming south on De Almo & Chicago R. R. on Friday morning last, ran off the track about two and a half miles below Detroit and fifty miles this side of Bloomington. Sundry cars were thrown from the track, and it was half o'clock in the day before the track was in order for the cars. Nobody was injured in the accident, but the engineer had a narrow escape. He was thrown from his engine, and the engine turned a complete somersault after him, coming a distance of about twenty feet. The engine was not much injured.

Larceny of Guns.—John Sullivan, a lad ten years of age, was arrested on Saturday afternoon and taken before the Police Court in search of the charge of stealing a gun. He was found guilty, and acknowledged that he stole fifty pounds of shot from Wright city recently, and a gun of the same description on Canal street, for a dollar and a half. He said the gun in question was sold to a boy named Jones, who resides
